

Electrical/Assembly Technician

H3D, Inc. seeks a highly reliable, skilled, perfection-gripped electrical assembly technician that is interested in a small, rapidly growing company. We design, develop, and manufacture sensor systems for military and domestic power applications. We are looking for the following skills and characteristics.

Skills/Experience:

- Production experience (use/create of work instructions, assembly processes, pilot builds, ISO 9001, etc.).
- Soldering/PCB assembly, diagnostics and repair.
- Reading and understanding wiring schematics.
- Working closely with mechanical, software, and hardware engineering teams to resolve issues.
- Knowledge of electrical components, proper assembly processes, and techniques. Ability to make something to print.
- Ability to communicate highly technical issues to engineering teams.

Intangibles:

- Fanatical with doing the job right while being very methodical and organized.
- Willingness to become an expert on in house equipment.
- Willingness to work with highly educated, motivated, and skilled coworkers.
- Willingness to wear whatever hat is needed that day.
- Positive and willing to listen and learn.

Required work may be on a government contract requiring US citizenship or Green Card.
